Here’s the scoop from Kathy:

“Finding scholarships to apply for is not that difficult, but understanding how to win is a different story. What distinguishes this seminar from others is a track record of recent success stories. I helped my daughter learn the process in 2009 and she won \$61,750 in five months! Since that time, my student clients have excelled!

When I paid \$400 an hour to a “specialist” to help me learn the process, I received information copied from the Internet. I was disappointed! Rather than receiving vague, generic information, you will have examples of *current* winning essays and *clear* step-by-step instructions.”
